### **Editorial Review**

#### **Review**

"Dexterously employing an interdisciplinary approach derived from semiotics, psychoanalysis, feminism, and dramatic theory (and writing with uncommon verve and lucidity)...the author maintains a skillful balance between analysis of intrinsically theatrical issues (dramatic form, plot convention, etc.) and attention to the socioeconomic context of institutions, writers, performers, and audience. Its broad historical scope and its focus on issues of representation set this useful work apart from both studies of women's authorship and more tightly focused examinations of particular aspects of theatrical tradition." S. Botterill, Choice
