Editorial Review

Review

"A brilliant response to Stephen Hawking's The Grand Design. Make sure you hear both sides of the argument!" —Alister McGrath, author, *The Dawkins Delusion*

"Recent books touting atheism have been grounded more on dyspepsia than on dispassionate reason. In this book John considers the best, most recent science from physics and biology, and demonstrates that the picture looks far different from what we've been told." —Michael Behe, author, *Darwin's Black Box on God's Undertaker*

"[God and Stephen Hawking] certainly deserves to win the 'Award of Merit' in the '2012 Christianity Today Books Awards.'" —Arn.org
