Parking Structures: Planning, Design, Construction, Maintenance and Repair

By Anthony P. Chrest, Mary Smith, Sam Bhuyan

Drawing on the combined expertise of three of the world's leading parking structure experts, this updated edition provides the only single-source guide to planning, designing, and maintaining parking structures. It provides readers with design solutions, including material on how to ensure long-term durability, design for easy maintenance, select the most energy efficient lighting system, decide on the number and placement of entrances and exits, and avoid the most common construction pitfalls.

Reflecting recent advances in technological innovations, this volume features significantly revised material and contains five new chapters on the Americans with Disabilities Act, lighting, graphics, seismic design, and designing for maintenance. The Second Edition of Parking Structures offers architects, engineers, parking facility owners, and contractors a unique and comprehensive guide to designing safe and effective parking structures. In addition, institutions providing education courses for professional registration in related fields will benefit from this timely, authoritative account.

Editorial Review

Users Review

From reader reviews:

Percy Brown:

This Parking Structures: Planning, Design, Construction, Maintenance and Repair usually are reliable for you who want to be considered a successful person, why. The key reason why of this Parking Structures: Planning, Design, Construction, Maintenance and Repair can be among the great books you must have is giving you more than just simple studying food but feed anyone with information that probably will shock your preceding knowledge. This book will be handy, you can bring it everywhere you go and whenever your conditions throughout the e-book and printed types. Beside that this Parking Structures: Planning, Design, Construction, Maintenance and Repair giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we know it useful in your day pastime. So , let's have it and enjoy reading.

Paul Queen:

Spent a free the perfect time to be fun activity to do! A lot of people spent their down time with their family, or their particular friends. Usually they carrying out activity like watching television, planning to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Do you want to something different to fill your free time/ holiday? May be reading a book is usually option to fill your cost-free time/ holiday. The first thing that you ask may be what kinds of book that you should read. If you want to attempt look for book, may be the guide untitled Parking Structures: Planning, Design, Construction, Maintenance and Repair can be fine book to read. May be it could be best activity to you.

Edward Grimes:

Reading can called brain hangout, why? Because when you find yourself reading a book mainly book entitled Parking Structures: Planning, Design, Construction, Maintenance and Repair your brain will drift away trough every dimension, wandering in every aspect that maybe mysterious for but surely can become your mind friends. Imaging each word written in a publication then become one form conclusion and explanation that maybe you never get ahead of. The Parking Structures: Planning, Design, Construction, Maintenance and Repair giving you one more experience more than blown away your brain but also giving you useful details for your better life in this particular era. So now let us present to you the relaxing pattern here is your body and mind are going to be pleased when you are finished reading it, like winning a sport. Do you want to try this extraordinary paying spare time activity?

Pamela Stanley:

As a pupil exactly feel bored for you to reading. If their teacher asked them to go to the library as well as to make summary for some book, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to go to the library. They go to right now there but nothing reading very seriously. Any students feel that looking at is not important, boring and also can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important to suit your needs. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Parking Structures: Planning, Design, Construction, Maintenance and Repair can make you really feel more interested to read.
