## **Editorial Review**

### **Review**

"This manual follows the familiar and successful formula of the larger text, "Trauma,."..Unlike many handbooks patterned after a parent text, however, these authors have updated presentations and reference lists since the larger hardbound reference was published. I recommend the "Trauma Manual" for conciseness and clarity in presentation and consider this an effective pocket guide for the members of the trauma service. 3 Stars."-- "Doody's Review Service,"
