A Guide to the Mammals of China From Princeton University Press

China's stunning diversity of natural habitats--from parched deserts to lush tropical forests--is home to more than 10 percent of the world's mammal species. *A Guide to the Mammals of China* is the most comprehensive guide to all 556 species of mammals found in China. It is the only single-volume reference of its kind to fully describe the physical characteristics, geographic distribution, natural history, and conservation status of every species. An up-to-date distribution map accompanies each species account, and color plates illustrate a majority of species. Written by a team of leading specialists, including Professor Wang Sung who provides a history of Chinese mammalogy, *A Guide to the Mammals of China* is the ideal reference for researchers and a delight for anyone interested in China's rich mammal fauna.

- The definitive, comprehensive, up-to-date guide to all of China's 556 mammal species
- High-quality color plates accompany the detailed text
- Each species account comes with a distribution map
- Organized taxonomically for easy reference
- Includes an extensive bibliography

Editorial Review

Review

[A] wonderful volume that will serve any field primatologist both as a guide to the area's monkeys and to help identify all those other strange non-primate mammals we glimpse through the binoculars from time to time.

From the Back Cover

"This is destined to be a landmark book on Asian mammals. Its publication marks a watershed event, enabling public understanding of a tenth of the world's mammal species. Contributors to the volume include many of the world's experts on Chinese mammals. This is an ambitious book."--**Bruce D. Patterson, Field Museum of Natural History**

About the Author

Andrew T. Smith is the Parents Association Professor of Life Sciences at Arizona State University. **Yan Xie** is associate research professor in the Institute of Zoology at the Chinese Academy of Sciences. **Robert S. Hoffmann**, now retired, was director of the Smithsonian Institution's National Museum of Natural History. **Darrin Lunde** is collections manager in the Department of Mammalogy at the American Museum of Natural History. **John MacKinnon** is a zoologist and writer whose many books include *A Field Guide to the Birds of China*. **Don E. Wilson** is curator of mammals at the National Museum of Natural History. **W. Chris Wozencraft** (1953-2007) was professor of biology at Bethel College. **Federico Gemma**, based in Rome, is a wildlife artist and freelance natural-history illustrator.

Users Review
