### Birds of Chile (Princeton Field Guides) By Alvaro Jaramillo

This is the essential new field guide to the birds of Chile. Representing a great diversity of habitats, from the Andes in the north down to the tundra and sub-Antarctic rainforest of Tierra del Fuego in the far south, Chile is the breeding ground or temporary abode of 473 known species including 9 found nowhere else in the world. *Birds of Chile* covers them all, embracing not only the mainland but points offshore such as Easter Island as well as the Antarctic Peninsula and adjacent islands, plus the Falklands and South Georgia. In addition to being a friendly and fruitful birding destination in its own right, Chile is the starting point for many Antarctic cruises.

Succinct, identification-focused text and distribution maps share a page opposite each of the 97 color plates to allow quick and easy reference. Between the boldfaced English name and the scientific name comes the Spanish name as used in Chile; this is important, for birders will find their quest far more enjoyable and effectual if they can explain to Chileans exactly what they are looking at, think they are looking at, or hope to be looking at.

Since Chile's list of resident species is yet far from conclusive, vagrants and rarities are also included. Indeed, some birds once thought to be accidentals in Chile have since proved to be regulars, including the Westland Petrel, Least Sandpiper, Cliff Swallow, and Golden-billed Saltator. Compact, comprehensive, and easy to use, *Birds of Chile* is the essential field guide to the birds of this spectacular and tourist-friendly country.

- The essential new field guide to the birds of Chile
- 97 color plates with succinct text and maps on facing pages for quick reference and easy identification
- All 473 known species breeding in or visiting Chile, from the Andes in the north down to the tundra and sub-Antarctic rainforest of Tierra del Fuego in the south

### Editorial Review

#### Review

#### Winner of the 2003 Best Bird Book - South America, Worldtwitch

##### From the Inside Flap

"Rarely does a field guide of this caliber debut as its country's first. *Birds of Chile* offers not just perfect field-portability, beautiful and accurate artwork with facing text, and clarity and conciseness throughout: it presents genuinely new scholarship on the field identification of several cryptic and difficult groups, as well as on the modern geographic distribution of Chile's birds. Those who bird Chile will find the combined brilliance of Jaramillo, Burke, and Beadle indispensable in the field and by the fireside."--Ned Brinkley, Editor, *North American Birds*

### Users Review

#### From reader reviews:

##### Eric Lowe:

Information is provisions for folks to get better life, information today can get by anyone on everywhere. The information can be a knowledge or any news even an issue. What people must be consider whenever those information which is in the former life are challenging be find than now is taking seriously which one is acceptable to believe or which one often the resource are convinced. If you have the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All those possibilities will not happen inside you if you take Birds of Chile (Princeton Field Guides) as your daily resource information.

##### Susan Parker:

Spent a free the perfect time to be fun activity to try and do! A lot of people spent their sparetime with their family, or their friends. Usually they undertaking activity like watching television, about to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Will you something different to fill your current free time/ holiday? May be reading a book could be option to fill your free time/ holiday. The first thing you will ask may be what kinds of guide that you should read. If you want to try out look for book, may be the publication untitled Birds of Chile (Princeton Field Guides) can be excellent book to read. May be it can be best activity to you.

**Susan Dixon:**

A lot of people always spent their particular free time to vacation or go to the outside with them family or their friend. Did you know? Many a lot of people spent many people free time just watching TV, or perhaps playing video games all day long. If you would like try to find a new activity this is look different you can read a new book. It is really fun for you. If you enjoy the book which you read you can spent all day long to reading a guide. The book Birds of Chile (Princeton Field Guides) it is quite good to read. There are a lot of people who recommended this book. We were holding enjoying reading this book. If you did not have enough space bringing this book you can buy the actual e-book. You can m0ore quickly to read this book from the smart phone. The price is not too expensive but this book has high quality.

**Kathryn Kern:**

What is your hobby? Have you heard in which question when you got college students? We believe that that question was given by teacher for their students. Many kinds of hobby, All people has different hobby. And also you know that little person such as reading or as looking at become their hobby. You have to know that reading is very important and book as to be the matter. Book is important thing to add you knowledge, except your current teacher or lecturer. You will find good news or update with regards to something by book. A substantial number of sorts of books that can you go onto be your object. One of them are these claims Birds of Chile (Princeton Field Guides).
