## I Wish I Knew This 20 Years Ago: Understanding The Universal Laws That Govern All Things By Mr Justin Perry

Life is not a series of random events, but is orchestrated through a set of natural laws that govern life on earth. Once we understand these laws, we will have a better understanding of how life works. Once we understand how life works, we can make life work for us, instead of against us. This book is an intended guidebook to offer knowledge that you can use throughout life. If I can sum up this entire book in one statement it would be: Your mind is literally shaping the world around you. The Author of this book owns the largest Self-Help YouTube Channel, "YouAreCreators".
