Imaging in Endocrinology By Paolo Pozzilli, Andrea Lenzi, Bart L. Clarke, William F. Young Jr.

Imaging in Endocrinology will provide endocrinologists and radiologists of all levels with an outstanding diagnostic imaging atlas to aid them in the diagnosis and management of all the major endocrine diseases they are likely to encounter.

In full colour throughout, the 300 high-quality images consist of CT scans, MRI, NMR and histopathology slides, and are arranged by each specific endocrine condition, resulting in a visually outstanding and easily accessible tool that guides the user through exactly what to look out for and provides a practical and extremely useful aid in helping them formulate a diagnosis.

Every major endocrine condition is covered in a specific section, including diseases of the thyroid, pituitary, reproductive and adrenal glands, the pancreas, bone metabolism problems, and the various forms of endocrine cancers. Each disease covered will offer a comparison of the normal findings so as to further assist in diagnosis. An accompanying website contains an online slide-atlas of all the figures in the book, to allow users to download all figures for use in presentations.

Led by Paolo Pozzilli, an internationally-recognised expert in this field, the authors have assembled a wonderful collection of images that will be greatly valued by endocrinologists and radiologists alike, ensuring this is the perfect tool to consult when assessing patients with endocrine disease.

Users Review

From reader reviews:

Linda Pillar:

Do you have favorite book? If you have, what is your favorite's book? Publication is very important thing for us to find out everything in the world. Each guide has different aim as well as goal; it means that book has different type. Some people truly feel enjoy to spend their time for you to read a book. They can be reading whatever they take because their hobby will be reading a book. Consider the person who don't like looking at a book? Sometime, individual feel need book when they found difficult problem or maybe exercise. Well, probably you'll have this Imaging in Endocrinology.

Noah Cale:

People live in this new time of lifestyle always make an effort to and must have the extra time or they will get wide range of stress from both way of life and work. So , whenever we ask do people have time, we will say absolutely yes. People is human not really a robot. Then we request again, what kind of activity do you have when the spare time coming to you of course your answer will unlimited right. Then do you ever try this one, reading guides. It can be your alternative throughout spending your spare time, often the book you have read is usually Imaging in Endocrinology.

Lacie Young:

You may spend your free time to read this book this publication. This Imaging in Endocrinology is simple to deliver you can read it in the recreation area, in the beach, train as well as soon. If you did not have got much space to bring often the printed book, you can buy the actual e-book. It is make you much easier to read it. You can save the book in your smart phone. Therefore there are a lot of benefits that you will get when one buys this book.

Robert Hollinger:

Is it you actually who having spare time then spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something totally new? This Imaging in Endocrinology can be the reply, oh how comes? A book you know. You are and so out of date, spending your time by reading in this fresh era is common not a geek activity. So what these publications have than the others?
