Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) By Tony Gaddis

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, and registrations are not transferable. To register for and use Pearson's MyLab & Mastering products, you may also need a Course ID, which your instructor will provide.

Used books, rentals, and purchases made outside of Pearson
If purchasing or renting from companies other than Pearson, the access codes for Pearson's MyLab & Mastering products may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase.

This text is intended for either a one-semester accelerated introductory course or a traditional two-semester sequence covering C++ programming. It is also suitable for readers interested in a comprehensive introduction to C++ programming.

Tony Gaddis's accessible, step-by-step presentation helps beginning students understand the important details necessary to become skilled programmers at an introductory level. Gaddis motivates the study of both programming skills and the C++ programming language by presenting all the details needed to understand the "how" and the "why"—but never losing sight of the fact that most beginners struggle with this material. His approach is both gradual and highly accessible, ensuring that students understand the logic behind developing high-quality programs.

In *Starting Out with C++: From Control Structures through Objects,* Gaddis covers control structures, functions, arrays, and pointers before objects and

classes. As with all Gaddis texts, clear and easy-to-read code listings, concise and practical real-world examples, and an abundance of exercises appear in every chapter.

MyProgrammingLab for *Starting Out with C++* is a total learning package. MyProgrammingLab is an online homework, tutorial, and assessment program that truly engages students in learning. It helps students better prepare for class, quizzes, and exams–resulting in better performance in the course–and provides educators a dynamic set of tools for gauging individual and class progress.

Teaching and Learning Experience
This program presents a better teaching and learning experience—for you and your students. It will help:

- **Personalize Learning with MyProgrammingLab:** Through the power of practice and immediate personalized feedback, MyProgrammingLab helps students fully grasp the logic, semantics, and syntax of programming.
- **Enhance Learning with the Gaddis Approach:** Gaddis's accessible approach features clear and easy-to-read code listings, concise real-world examples, and exercises in every chapter.
- **Keep Your Course Current:** This edition introduces many of the new C++11 language features.
- **Support Instructors and Students:** Student and instructor resources are available to expand on the topics presented in the text.

Note: *Starting Out with C++ from Control Structures to Objects with MyProgrammingLab Access Card Package, 8/e* contains:

- ISBN-10: 0133769399/ISBN-13: 9780133769395 *Starting Out with C++ from Control Structures to Objects , 8/e*
- ISBN-10: 0133780619/ISBN-13: 9780133780611 *MyProgrammingLab with Pearson eText -- Access Card -- for Starting Out with C++ from Control Structures to Objects*, 8/e

MyProgrammingLab is not a self-paced technology and should only be purchased when required by an instructor.

Editorial Review

About the Author

Tony Gaddis is the principal author of the *Starting Out With* series of textbooks. Tony has nearly two decades of experience teaching computer science courses, primarily at Haywood Community College. He is a highly acclaimed instructor who was previously selected as the North Carolina Community College "Teacher of the Year" and has received the Teaching Excellence award from the National Institute for Staff and Organizational Development. The *Starting Out With* series includes introductory books covering C++, Java™, Microsoft® Visual Basic®, Microsoft® C#®, Python®, Programming Logic and Design, Alice, and App Inventor, all published by Pearson. More information about all these books can be found at www.pearsonhighered.com/gaddisbooks.

Users Review

From reader reviews:

Gerald Toups:

Playing with family in a park, coming to see the water world or hanging out with good friends is thing that usually you will have done when you have spare time, and then why you don't try issue that really opposite from that. Just one activity that make you not sensation tired but still relaxing, trilling like on roller coaster you already been ride on and with addition of information. Even you love Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition), you may enjoy both. It is good combination right, you still wish to miss it? What kind of hangout type is it? Oh come on its mind hangout guys. What? Still don't buy it, oh come on its called reading friends.

James Kline:

Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) can be one of your beginning books that are good idea. We recommend that straight away because this publication has good vocabulary that may increase your knowledge in terminology, easy to understand, bit entertaining but delivering the information. The author giving his/her effort to set every word into enjoyment arrangement in writing Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) although doesn't forget the main position, giving the reader the hottest and based confirm resource facts that maybe you can be one among it. This great information could drawn you into completely new stage of crucial contemplating.

Teresa Hennessey:

Are you kind of occupied person, only have 10 or perhaps 15 minute in your day to upgrading your mind skill or thinking skill perhaps analytical thinking? Then you are having problem with the book compared to

can satisfy your small amount of time to read it because this all time you only find guide that need more time to be read. Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) can be your answer since it can be read by an individual who have those short extra time problems.

Samantha Williams:

This Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) is completely new way for you who has curiosity to look for some information as it relief your hunger of information. Getting deeper you onto it getting knowledge more you know otherwise you who still having bit of digest in reading this Starting Out with C++ from Control Structures to Objects plus MyProgrammingLab with Pearson eText -- Access Card Package (8th Edition) can be the light food for you because the information inside that book is easy to get by anyone. These books create itself in the form that is reachable by anyone, yes I mean in the e-book form. People who think that in publication form make them feel sleepy even dizzy this reserve is the answer. So there is no in reading a book especially this one. You can find what you are looking for. It should be here for you actually. So , don't miss it! Just read this e-book sort for your better life and also knowledge.
