Facing Global Environmental Change: Environmental, Human, Energy, Food, Health and Water Security Concepts (Hexagon Series on Human and Environmental Security and Peace) From Brand: Springer

The year 2007 could perhaps accurately be described as the year when climate change finally received the attention that this challenge deserves globally. Much of the information and knowledge that was created in this field during the year was the result of the findings of the Fourth - sessment Report (AR4) of the Intergovernmental Panel on Climate Change (IPCC), which were disseminated on a large scale and reported extensively by the media. This was the result not only of a heightened interest on the part of the public on various aspects of climate change, but also because the IPCC itself proactively attempted to spread the findings of its AR4 to the public at large. The interest generated on the scientific realities of climate change was further enhanced by the award of the Nobel Peace Prize to the IPCC and former Vice President of the US, Al Gore. By taking this decision in favour of a leader who has done a great deal to create awareness on c- mate change, and a body that assesses all scientific aspects of climate change and disseminates the result of its findings, the Norwegian Nobel Committee has clearly drawn the link between climate change and peace in the world.

Editorial Review

Review

Aus den Rezensionen:

"... Der Band schließt unmittelbar an das zur selben Konferenz erschienene Handbuch 'Globalization and Environmental Challenges' ... an, mit dem die umfangreiche Diskussion zum Sicherheitsdenken im 21. Jahrhundert vorgestellt wurde. Diese Überlegungen werden nun um die zentrale Verknüpfung von Frieden und Sicherheit mit den globalen Bedrohungen, die durch den Klimawandel entstehen, erweitert und vertieft. ... Dieses Handbuch bietet umfassende Analysen, die zur Information und als Entscheidungshilfen dienen sollen, neben politischen Akteuren werden aber auch Wissenschaftler sowie grundsätzlich die jüngeren Generationen angesprochen ..." (in: ZPol Zeitschrift für Politikwissenschaft, 23/September/2009)

Users Review

From reader reviews:

Scott Halpin:

This Facing Global Environmental Change: Environmental, Human, Energy, Food, Health and Water Security Concepts (Hexagon Series on Human and Environmental Security and Peace) book is absolutely not ordinary book, you have after that it the world is in your hands.
