## Calculus By James Stewart

Stewart's CALCULUS, FOURTH EDITION reflects the same old-world dedication to excellence that characterized the first three editions. It has been revised with dedication, precision, and patient care to further emphasize conceptual understanding. A phenomenon of the Stewart success is the texts' use in such a wide variety of colleges and universities throughout the world. Just as he teaches to every student in his classes from the most unprepared to the most mathematically gifted, Stewart writes to a range of students - adding the explanations that make ideas come alive as well as the problems that challenge. Stewart's heuristic examples reveal calculus to students. His examples stand out because they are not just models for problem solving or a means of demonstrating techniques - they also encourage students to develop an analytic view of the subject.

### Editorial Review

#### About the Author

The late James Stewart received his M.S. from Stanford University and his Ph.D. from the University of Toronto. He did research at the University of London and was influenced by the famous mathematician George Polya at Stanford University. Stewart was most recently Professor of Mathematics at McMaster University, and his research field was harmonic analysis. Stewart was the author of a best-selling calculus textbook series published by Cengage Learning, including **CALCULUS**, **CALCULUS: EARLY TRANSCENDENTALS**, and **CALCULUS: CONCEPTS AND CONTEXTS**, as well as a series of precalculus texts.

### Users Review

#### From reader reviews:

##### **Sharon Self:**

What do you think about book? It is just for students as they are still students or this for all people in the world, exactly what the best subject for that? Simply you can be answered for that problem above. Every person has different personality and hobby for every other. Don't to be pushed someone or something that they don't wish do that. You must know how great and also important the book Calculus. All type of book is it possible to see on many options. You can look for the internet resources or other social media.

##### **Paul Andrews:**

As people who live in the modest era should be change about what going on or info even knowledge to make these keep up with the era which is always change and make progress. Some of you maybe will probably update themselves by reading through books. It is a good choice for you personally but the problems coming to anyone is you don't know which you should start with. This Calculus is our recommendation to cause you to keep up with the world. Why, as this book serves what you want and want in this era.

##### **Nicholas Mishler:**

Your reading 6th sense will not betray an individual, why because this Calculus reserve written by well-known writer who really knows well how to make book which can be understand by anyone who also read the book. Written in good manner for you, still dripping wet every ideas and writing skill only for eliminate your own hunger then you still doubt Calculus as good book not only by the cover but also by content. This is one guide that can break don't ascertain book by its cover, so do you still needing a different sixth sense to pick this!? Oh come on your looking at sixth sense already told you so why you have to listening to yet another sixth sense.

**Therese Webb:**

As we know that book is very important thing to add our understanding for everything. By a book we can know everything we really wish for. A book is a pair of written, printed, illustrated or perhaps blank sheet. Every year had been exactly added. This publication Calculus was filled regarding science. Spend your extra time to add your knowledge about your scientific research competence. Some people has several feel when they reading the book. If you know how big advantage of a book, you can feel enjoy to read a e-book. In the modern era like right now, many ways to get book that you just wanted.
