Maybe One Day By Melissa Kantor

In the tradition of *The Fault in Our Stars*, critically acclaimed author Melissa Kantor masterfully captures the joy of friendship, the agony of loss, and the unique experience of being a teenager in this poignant new novel about a girl grappling with her best friend's life-threatening illness.

A person's whole life, she's lucky to have one or two real friends. Friends who are like family... For Zoe, that someone is Olivia. So when Olivia is diagnosed with leukemia, Zoe is determined to put on a brave face and be positive for her best friend.

Even when she isn't sure what to say. Even when Olivia misses months of school. Even when Zoe starts falling for Calvin, Olivia's crush.

The one thing that keeps Zoe moving forward is knowing that Olivia will beat this, and everything will go back to the way it was before. It has to. Because the alternative is too terrifying for her to even imagine.

Editorial Review

From School Library Journal

Gr 9 Up—In the fall of junior year, Olivia and Zoe are dealing with typical issues: school, family, and trying to figure out how to channel the energy and passion that had previously gone to pre-professional ballet studies. The teens are perfect complements to each other ("salt and pepper" due to their opposite personalities and hair colors) and have been inseparable since they met as children in a local New Jersey ballet class. As a team, they now face the ultimate challenge—Olivia's surprising and aggressive leukemia. As she struggles with her illness and the devastating treatments, Zoe also strives to figure out how to be "normal" without her other half. Kantor expertly creates a balanced novel that conveys heartfelt emotion without veering toward the maudlin. When Olivia's illness reaches its sad conclusion in the spring of junior year, readers' inevitable tears will be organic and unforced. The dialogue is fresh and authentic, and Zoe is a layered narrator in Kantor's hands—she is at once angry, sad, optimistic, and confused. Her best friend is less complex and more beatific, but given that she is depicted through the eyes of her biggest fan, it makes sense and doesn't detract from the power of the story. While there is a sweet and appropriately complicated subplot about first love in this novel, the real love story is between Olivia and Zoe—their deep friendship of mutual understanding is one to be cherished. While this novel will certainly appeal to teens seeking a good cry along the lines of John Green's *The Fault in Our Stars* (Dutton, 2012) or Jenny Downham's *Before I Die* (Random, 2007), *Maybe One Day* will also resonate with those looking for a faithful portrayal of female friendship.—Susannah Goldstein, Convent of the Sacred Heart, New York City

From [Booklist](#)

The worst thing ever happens to forever friends Olivia and Zoe when they are cut from their prestigious ballet troupe. Livvie joins other activities, but Zoe is adrift without the one thing that mattered to her. Then Livvie is diagnosed with leukemia, and Zoe's life is fractured once again. She spends as much time as possible with Livvie, while needing to keep up at school and navigating the growing connection between herself and Calvin, Livvie's crush. Kantor ably steers the reader through the intensity of Zoe's brief life-changing experience, weaving in realistic high-school dynamics and Zoe's search for anything to take her mind off her sadness. What she finds is solace by subbing for Livvie at the beginning ballet classes at a community center and kissing Calvin any chance she gets. Though this contemporary cancer story laced with everyday and extraordinary experiences will undoubtedly draw comparisons to that other cancer book, Livvie's cancer story and Zoe's emotionally complex web of friendship, fear, loss, love, pain, have their own appeal, and are well worth reading. Grades 8-11. --Heather Booth

Review

A beautiful, heartbreak story about friendship, loss, and what it means to truly live. I loved it.--Lauren Barnholdt, author of *The Thing About the Truth* and *Two-Way Street*

Users Review

From reader reviews:

Tommy Cowen:

The book *Maybe One Day* make one feel enjoy for your spare time. You should use to make your capable much more increase.
