Sacrifice and Initiative in Chess: Seize the Moment to Get the Advantage By Ivan Sokolov

The sacrifice is one of the most beautiful, rewarding and complex aspects of chess. During a game the decision to give up material in order to get an advantage is probably the most difficult one a player has to take. Often, you have to burn your bridges without being able to fully calculate the consequences. Risks and rewards are racing through your mind, fighting for precedence while the clock keeps ticking. Now is the moment, because after the next move the window for this opportunity may be closed. In this book Ivan Sokolov presents a set of practical tools that will help you to master the art of sacrifice. By concentrating on the aim you are trying to achieve, rather than on the opening you are playing or the piece you might be going to sack, he teaches you how to come to a reasonable risk assessment and how to trust your intuition. There is a separate part on seizing the initiative without actually giving up material. Ivan Sokolov has written an entertaining and instructive guide, packed with useful advice and lots of practical examples.

Editorial Review

Review

Ivan Sololov may be the strongest active player writing books on middle game theory, and the quality shows. He writes and analyses with great enthusiasm and expertise and the attentive reader will not just be entertained by the great games, he'll be educated as well. (Dennis Monokroussos *The Chess Mind*)

The structure is well thought out and makes the material easier to digest. The book shines in Sokolov's constant attempts to explain rules and principles (in particular the attacking ratio, which dominates most examples) coupled with stories about particular games or concepts. (Sam Collins *Chess Today*)

Sokolov does an extremely remarkable job. His explanations are always convincing and instructive. (Klaus Kreuzer *Rochade Europa Magazine*)

One of the book's strongest chapters deals with ignoring our opponents' threats by creating counter-threats of our own. *Sacrifice and Initiative in Chess* is a thought-provoking and mature study of great importance.

(John D. Warth, This title is destined to be a classic... *Chess Club of Southern Indiana*)

Sokolov writes clearly and instructively, and once again he has produced an excellent book that is a pleasure to read.

(Joe Petrolito *Australasian Chess Magazine*)

The book offers useful ideas, presents wonderful attacking games and motivates to play creatively. The explanations by this experienced grandmaster are instructive and enlightening. (Martin Rieger *Schachwelt*)

Presents not only rules of thumb but also specific insights that had never crossed by mind. (Hans Ree, International grand master *NRC Handelsblad*)

This book will truly help you to improve your attacking skills!

(*Elburg Chess Reviews*)

An outstanding work that should appeal to a wide audience.

(John Donaldson, International master, International Master)

About the Author

Ivan Sokolov is a top grandmaster who was born in Bosnia in 1968. He was Yugoslav champion in 1988 and Dutch champion in 1995 and 1998. He rose to the number 12 spot in the FIDE world rankings. In his rich career Sokolov has beaten world chess champions Garry Kasparov, Vladimir Kramnik and Viswanathan Anand. His previous books *The Ruy Lopez Revisited*, *The Strategic Nimzo-Indian* and *Winning Chess Middlegames* were widely acclaimed bestsellers.

Users Review
