**Satellite Communications Fundamentals (Artech House space technology & applications library)** By Jules E. Kadish, Thomas W.R. East

This manual seeks to help the reader grasp the fundamentals of satellite communications and related disciplines by explaining the underpinnings, introducing key personalities, and probing emerging issues. Starting with the basics, the authors introduce key topics such as orbital mechanics, electromagnetic theory, and atmospheric effects on signals, earth stations, digital communication, and video compression. The accompanying CD-ROM allows practical calculations such as rain attenuation and radio link budgets.

### **Editorial Review**

#### **About the Author**

Jules E. Kadish received his B.Eng. from McGill University and did post-graduate work at Northeastern and Harvard Universities, as well as M.I.T. He worked for Raytheon and Scientific Atlanta before retiring as International VP in 1991. He is the author of Global High-Tech Marketing (Artech House, 1993). Thomas W.R. East, Ph.D., was part of the Stormy Weather Group at McGill University before working at Raytheon Canada, from which he retired as Director of Advanced Development in 1987. He received his B.A. in Physics from Cambridge University and his Ph.D. from McGill.

### **Users Review**

#### **From reader reviews:**

##### **Jack Baldwin:**

As people who live in the modest era should be update about what going on or details even knowledge to make these keep up with the era and that is always change and advance. Some of you maybe will certainly update themselves by reading books. It is a good choice for you but the problems coming to anyone is you don't know what type you should start with. This Satellite Communications Fundamentals (Artech House space technology & applications library) is our recommendation to help you keep up with the world. Why, because book serves what you want and need in this era.

##### **Melissa Hopkins:**

Nowadays reading books are more than want or need but also become a life style. This reading addiction give you lot of advantages. The huge benefits you got of course the knowledge the actual information inside the book which improve your knowledge and information. The data you get based on what kind of publication you read, if you want attract knowledge just go with education and learning books but if you want really feel happy read one together with theme for entertaining like comic or novel. Often the Satellite Communications Fundamentals (Artech House space technology & applications library) is kind of e-book which is giving the reader unforeseen experience.

##### **Daniel Guy:**

Reading a reserve tends to be new life style in this era globalization. With reading through you can get a lot of information that will give you benefit in your life. Using book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Plenty of author can inspire their very own reader with their story or their experience. Not only situation that share in the publications. But also they write about advantage about something that you need case in point. How to get the good score toefl, or how to teach your children, there are many kinds of book which exist now. The authors in this world always try to improve their talent in writing, they also doing some analysis before they write on their book. One of them is this Satellite Communications Fundamentals (Artech House space technology & applications library).

**Sophia Myers:**

Many people spending their time by playing outside together with friends, fun activity having family or just watching TV all day every day. You can have new activity to pay your whole day by looking at a book. Ugh, do you consider reading a book can definitely hard because you have to bring the book everywhere? It ok you can have the e-book, getting everywhere you want in your Cell phone. Like Satellite Communications Fundamentals (Artech House space technology & applications library) which is keeping the e-book version. So , why not try out this book? Let's observe.
