## The Atlantic Slave Trade: A Census By Philip D. Curtin

Curtin combines modern research and statistical methods with his broad knowledge of the field to present the first book-length quantitative analysis of the Atlantic slave trade. Its basic evidence suggests revision of currently held opinions concerning the place of the slave trade in the economies of the Old World nations and their American colonies.

“Curtin’s work will not only be the starting point for all future research on the slave trade and comparative slavery, but will become an indispensable reference for anyone interested in Afro-American studies.”—*Journal of American History*

“Curtin has produced a stimulating monograph, the product of immaculate scholarship, against which all past and future studies will have to be judged.”—*Journal of American Studies*

“Professor Curtin’s new book is up to his customary standard of performance: within the limits he set for himself, The Atlantic Slave Trade could hardly be a better or more important book.”—*American Historical Review*

As a pupil exactly feel bored to be able to reading. If their teacher questioned them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's spirit or real their interest. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading really. Any students feel that studying is not important, boring and also can't see colorful pictures on there. Yeah, it is for being complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this The Atlantic Slave Trade: A Census can make you feel more interested to read.
