## Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) From IHS BRE Press

These two volumes form the proceedings of the Second BGA International Conference on Foundations, organised by the Geotechnical Engineering Research Group of the University of Dundee in June 2008. Over 150 papers from 40 countries are included, grouped into 14 themes, which provide an international perspective of the latest advances in foundation engineering in research, design and practice. The topics covered in Volume One are piles, excavations, and offshore foundations, and Volume Two focuses on ground behaviour and improvement, shallow foundations and slopes. Keynote papers by eminent geotechnical engineers are included: The relevance of developer costs in geotechnical risk management - Tim Chapman. Offshore foundation design - a moving target - Mark Randolph and Dave White. Piles under horizontal load: an overview - Gianpiero Russo and Carlo Viggiani.

#### **About the Author**

University of Dundee, UK

### **Users Review**

#### **From reader reviews:**

##### **Sandra Snyder:**

Do you have favorite book? When you have, what is your favorite's book? Guide is very important thing for us to understand everything in the world. Each book has different aim or even goal; it means that guide has different type. Some people sense enjoy to spend their time for you to read a book. They are reading whatever they consider because their hobby is usually reading a book. What about the person who don't like reading through a book? Sometime, individual feel need book after they found difficult problem as well as exercise. Well, probably you will want this Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93).

##### **Colleen Nguyen:**

In this 21st millennium, people become competitive in every way. By being competitive now, people have do something to make these individuals survives, being in the middle of the crowded place and notice by surrounding. One thing that occasionally many people have underestimated this for a while is reading. Yep, by reading a publication your ability to survive improve then having chance to stand up than other is high. To suit your needs who want to start reading a new book, we give you this specific Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) book as basic and daily reading book. Why, because this book is greater than just a book.

##### **Corey Mullen:**

The experience that you get from Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) could be the more deep you searching the information that hide inside words the more you get considering reading it. It doesn't mean that this book is hard to be aware of but Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) giving you excitement feeling of reading. The copy writer conveys their point in selected way that can be understood simply by anyone who read that

because the author of this publication is well-known enough. This kind of book also makes your own personal vocabulary increase well. Therefore it is easy to understand then can go to you, both in printed or e-book style are available. We recommend you for having that Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) instantly.

**Lola Kelly:**

Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) can be one of your starter books that are good idea. All of us recommend that straight away because this guide has good vocabulary that could increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The article writer giving his/her effort that will put every word into delight arrangement in writing Foundations: Proceedings of the Second International British Geotechnical Association Conference on Foundations, ICOF 2008 (EP 93) yet doesn't forget the main position, giving the reader the hottest along with based confirm resource info that maybe you can be one among it. This great information may drawn you into completely new stage of crucial considering.
