General, Organic and Biochemistry By Katherine Denniston, Joseph Topping, Kim Woodrum, Robert Caret

The eighth edition of *General, Organic, and Biochemistry* is designed to help undergraduate health-related majors, and students of all other majors, understand key concepts and appreciate the significant connections between chemistry, health, disease, and the treatment of disease. This text continues to strike a balance between theoretical and practical chemistry, while emphasizing material that is unique to health-related studies. The text has been written at a level intended for students whose professional goals do not include a mastery of chemistry, but for whom an understanding of the principles and practice of chemistry is a necessity.

Designed for the one- or two-semester course, this text has an easy-to-follow problem-solving pedagogy, vivid illustrations, and engaging applications.

Editorial Review

About the Author

Joe Topping currently is a professor of analytical chemistry at Towson State University. He did his post-doc at Iowa State University in Ames. At Towson, he has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". He has written ancillaries for an outstanding text, Atkins - General Chemistry and is heavily involved with the American Chemical Society.

Kate Denniston is a biochemist in the Biology Dept. of Towson State University. At Towson, she has been honored with such awards as the "Outstanding Faculty Award" and the "Faculty Merit Award". Her previous employment record is literally a list of some of the best biochemistry institutions in the world: Univ. of Wisconsin as a post-doc, Georgetown University School of Medicine as research professor, National Cancer Institute as a Senior Staff Fellow, the Argonne National laboratory in their research program, and as an Invited Instructor by the European Molecular Biology Organization. She has written for such noteworthy publications as Nature, Science.

Bob Caret is currently Provost and Executive Vice President of Towson State University and an associate professor of chemistry. He has written an Organic Chemistry text previously. Professor Caret's focus in the textbook is in organic chemistry.

Users Review

From reader reviews:

Jesse Valles:

Nowadays reading books become more than want or need but also turn into a life style. This reading routine give you lot of advantages. The benefits you got of course the knowledge your information inside the book in which improve your knowledge and information. The information you get based on what kind of publication you read, if you want attract knowledge just go with education books but if you want sense happy read one having theme for entertaining including comic or novel. The actual General, Organic and Biochemistry is kind of e-book which is giving the reader unpredictable experience.

Ruth Williams:

Spent a free a chance to be fun activity to accomplish! A lot of people spent their leisure time with their family, or their particular friends. Usually they performing activity like watching television, planning to beach, or picnic inside the park. They actually doing ditto every week. Do you feel it? Would you like to something different to fill your current free time/ holiday? Can be reading a book might be option to fill your free of charge time/ holiday. The first thing that you will ask may be what kinds of book that you should read. If you want to attempt look for book, may be the publication untitled General, Organic and Biochemistry can be fine book to read. May be it may be best activity to you.

Philip Cooper:

Typically the book General, Organic and Biochemistry has a lot details on it. So when you read this book you can get a lot of benefit. The book was published by the very famous author. McDougal makes some research just before write this book. This book very easy to read you will get the point easily after scanning this book.

Bertha Morrison:

As a scholar exactly feel bored for you to reading. If their teacher inquired them to go to the library or make summary for some publication, they are complained. Just very little students that has reading's spirit or real their interest. They just do what the teacher want, like asked to go to the library. They go to right now there but nothing reading significantly. Any students feel that examining is not important, boring and also can't see colorful images on there. Yeah, it is being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. Therefore , this General, Organic and Biochemistry can make you sense more interested to read.
