PMP in Depth: Project Management Professional Study Guide for the PMP Exam By Paul Sanghera

The primary purpose of this book is to help you pass the Project Management Professional (PMP) exam administered by the Project Management Institute (PMI). Because the book has a laser-sharp focus on the exam objectives, expert project managers who want to pass the PMP exam can use this book to ensure that they do not miss any objective. Yet this is not simply an exam-cram book. The chapters and the sections within each chapter are presented in a logical learning sequence: A topic and a chapter only depend upon the previously covered topics and chapters, and there is no hopping from topic to topic. The concepts and topics, both simple and complex, are clearly explained when they appear for the first time. No prior knowledge of project management is assumed. This facilitates stepwise learning, prevents confusion, and makes this book useful for anyone who wants to get up to speed quickly to learn the fundamentals of project management, pass the PMP exam, or both, even if they are new to the discipline of project management. A fulllength practice exam with fully explained answers is also included.

From the Author

How does this book relate to some of my other books? This book combined with the following two books makes a complete set for the PMP exam preparation:

1. PMP Exam Quicklet, Second Edition.
2. PMP and CAPM Flashcard Quicklet, Second Edition.

About the Author

One of the world's leading experts in project management, Dr. Paul Sanghera, is a manager, educator, technologist, and entrepreneur, and has a comprehensive and diverse project management experience in the computer industry from Netscape to MP3 and at research labs from Cornell to CERN. Having worked in various roles including director of project management, director of software development, software developer, trainer, and scientist, he has a broad view of project management. Expertise in multiple application areas including physics, computer science, RFID, biotechnology, and nanotechnology has helped him to master the global principles of project management that apply to all application areas. Dr. Sanghera has several industry certifications, including PMP, CAPM, Project+, Network+, Linux+, SCJP, and SCBCD, and has contributed to building the world-class technologies such as Netscape Communicator and Novell's NDS. As an engineering manager, he has been at the ground floor of several startups and has been a lecturer at San Jose State University and Brooks College. He has authored or co-authored more than 100 technical papers published in well-reputed European and American research journals. Paul is the best-selling author of several books on science, technology, and project management. Dr. Sanghera has a Master's degree in Computer Science from Cornell University and a Ph.D. in Physics from Carleton University. He currently lives in Silicon Valley where he runs an information company, Infonential Inc., that specializes in project management and emerging technologies.

Users Review

From reader reviews:

Brian Bottoms:

Do you have a favorite book? When you have, what is your favorite's book? Book is a very important thing for us to find out everything in the world. Each book has a different aim or perhaps goal; it means that book has a different type. Some people truly feel joy to spend their time to read a book. They can be reading whatever they acquire because their hobby will be reading a book. What about the person who doesn't like reading a book? Sometime, individuals feel they need a book if they found a difficult problem or exercise. Well, probably you should have this PMP in Depth: Project Management Professional Study Guide for the PMP Exam.

Richard Simpson:

What do you concerning book? It is not important along? Or just adding material if you want something to explain what the ones you have problem? How about your extra time? Or are you busy man? If you don't have spare time to do others business, it is make you feel bored faster. And you have free time? What did you do? Everyone has many questions above. They need to answer that question due to the fact just their can do which. It said that about publication. Book is familiar in each person. Yes, it is suitable.
