By James Fishman, Stephen Schwarz, Lloyd Mayer

Taxation of Nonprofit Organizations, Cases and Materials (University Casebook Series) By James Fishman, Stephen Schwarz, Lloyd Mayer

This casebook has been adapted from the authors' pioneering and widely used casebook, *Nonprofit Organizations: Cases and Materials*. Topics covered include organizational and operational requirements for tax-exempt status for charitable and mutual benefit organizations, private foundations, the unrelated business income tax, and the charitable contributions deduction. An introductory chapter provides valuable perspective and a concise overview of the nontax considerations affecting choice of legal form for a nonprofit organization. The Fourth Edition incorporates all important new legislative, judicial and administrative developments, including final regulations on the public charity support tests and supporting organizations; proposed regulations on the heightened exemption requirements for nonprofit hospitals and program-related investments; and the ongoing controversy over the use of nonprofit organizations for political campaign activity. Perfect for instructors seeking more intensive tax-focused coverage, this spin-off edition has been carefully customized for use in 2 or 3-unit J.D. and LL.M courses on taxation of the nonprofit sector. Each chapter contains a rich but manageable mix of materials, including well-edited cases, major rulings, policy excerpts, lively notes and questions, skillfully designed problems that raise policy, technical and planning issues, and bibliographic references.
