IBM Rational Unified Process Reference and Certification Guide: Solution Designer (RUP) By Ahmad K. Shuja, Jochen Krebs

The Only Official RUP® Certification Prep Guide and Compact RUP Reference

The IBM® Rational Unified Process® has become the de facto industry-standard process for large-scale enterprise software development. The IBM Certified Solution Designer - IBM Rational Unified Process V7.0 certification provides a powerful way for solutions developers to demonstrate their proficiency with RUP.

The first and only official RUP certification guide, this book fully reflects the latest versions of the Rational Unified Process and of the IBM RUP exam. Authored by two leading RUP implementers, it draws on extensive contributions and careful reviews by the IBM RUP process leader and RUP certification manager.

This book covers every facet of RUP usage. It has been carefully organized to help you prepare for your exam quickly and efficiently--and to provide a handy, compact reference you can rely on for years to come.

Coverage includes

- A full section on RUP exam preparation and a 52-question practice exam
- Core RUP concepts, the new RUP process architecture, and key principles of business-driven development
- RUP's architecture-centric approach to iterative development: practical issues and scenarios
- Patterns for successful RUP project implementation--and "anti-patterns" to avoid
- The Unified Method Architecture (UMA): basic content and process elements
- RUP content disciplines, in depth: Business Modeling, Requirements, Analysis and Design, Implementation, Test, Deployment, Project Management, Change and Configuration Management, and Environment
- Essential RUP work products, roles, and tasks

- RUP phases, activities, and milestones
- RUP tailoring and tools for your organization--including introductions to IBM Rational Method Composer (RMC) and MyRUP

About the Author

Ahmad K. Shuja, www.shuja.info, is an accomplished IT manager and professional who has worked at some of the major financial services (Citigroup Inc., Merrill Lynch & Co., and others) and management consulting organizations (Ernst & Young Inc. / Cap Gemini Ernst & Young Inc., and others) around the globe. He has a proven track record of successfully enabling organizations to build and manage high-quality, software-intensive products and services efficiently and effectively. Ahmad provides advisory and consulting services in IT strategy and planning, IT Service Management (ITSM) and governance, program and project management (PMO) transformation and operations, software engineering processes and agile software development (RUP, XP, SCRUM, and others), enterprise architecture, and business process management. In addition, he offers training and mentoring services across a wide range of IT disciplines.

Ahmad holds the degrees Master of Science in Management of Technology from the Massachusetts Institute of Technology (MIT Sloan School of Management), Master of Science in Computation (Mathematics and Software Engineering) from the University of Oxford, and Master of Information Systems from the University of Toronto. He also holds numerous professional certifications, including Project Management Institute (PMI) Project Management Professional (PMP), Software Engineering Institute (SEI) Certificate in Capability Maturity Model Integration (CMMI), IT Infrastructure Library (ITIL) Service Manager (ITIL

Master Certification), and Certified RUP Specialist, to name a few. Ahmad can be reached directly at ahmad@alum.mit.edu.

Jochen (Joe) Krebs, www.jochenkrebs.com, is an active member of both the Agile Alliance and the Scrum Alliance. He also is a member of the Agile Project Leadership Network (APLN) and spearheads the local chapter in New York City. He is an IBM Certified Specialist — Rational Unified Process and an IBM Certified Solution Designer — Rational Unified Process 7.0. He is also a Certified ScrumMaster (CSM) and a Project Management Professional (PMP®). Joe frequently publishes articles with a focus on project management and requirements engineering, and he speaks at conferences and companies. He received his MSc in Computing for Commerce and Industry from the Open University and teaches regularly at New York University (NYU). In his current role, he is responsible for successful adoption of agile development practices in a large investment bank in New York City and provides agile mentoring services through www.incrementor.com. He is currently working on his new book, *Agile Portfolio Management*, to be released in 2008.

Prior to taking on his current responsibilities, Joe co-developed the latest RUP certification examination and authored content for RUP using the Rational Method Composer. In addition, he contributed to the OpenUP project within the Eclipse foundation.

Throughout his career, Joe has taught more than 1,000 professionals in the USA and Europe. The topics have included project management, requirements engineering, object-oriented analysis and design, Smalltalk, Java™, agile development processes, and the RUP.

Users Review

From reader reviews:

Jerry Day:

Information is provisions for anyone to get better life, information currently can get by anyone at everywhere. The information can be a knowledge or any news even a huge concern. What people must be consider whenever those information which is from the former life are challenging be find than now could be taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you receive the unstable resource then you buy it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take IBM Rational Unified Process Reference and Certification Guide: Solution Designer (RUP) as your daily resource information.

Augusta Wilson:

People live in this new day time of lifestyle always aim to and must have the free time or they will get wide range of stress from both lifestyle and work. So , whenever we ask do people have spare time, we will say absolutely indeed. People is human not a robot. Then we ask again, what kind of activity have you got when the spare time coming to anyone of course your answer will probably unlimited right. Then do you try this one, reading guides. It can be your alternative with spending your spare time, typically the book you have read is IBM Rational Unified Process Reference and Certification Guide: Solution Designer (RUP).

Wendy Clark:

You will get this IBM Rational Unified Process Reference and Certification Guide: Solution Designer (RUP) by go to the bookstore or Mall. Merely viewing or reviewing it may to be your solve issue if you get difficulties for ones knowledge. Kinds of this e-book are various. Not only by means of written or printed but also can you enjoy this book by simply e-book. In the modern era similar to now, you just looking by your local mobile phone and searching what their problem. Right now, choose your own ways to get more information about your publication. It is most important to arrange yourself to make your knowledge are still revise. Let's try to choose appropriate ways for you.

Richard Plummer:

Some people said that they feel bored stiff when they reading a reserve. They are directly felt the item when they get a half portions of the book. You can choose the book IBM Rational Unified Process Reference and Certification Guide: Solution Designer (RUP) to make your own reading is interesting.
