Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics) By Cem Unsalan, H. Deniz Gurhan

MASTER THE MSP430 MICROCONTROLLER AND DEVELOPMENT PLATFORM

Expand your electronics design skills to include the MSP430 family of ultra-low-power microprocessors with help from this practical guide. *Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace* thoroughly explains each concept and provides illustrated examples and projects. Find out how to configure the MSP430, efficiently program custom functions, process analog and digital signals, and interface with external components. Sample code and reference information are available on the companion website.

COVERAGE INCLUDES:

- * Digital circuit and microcontroller fundamentals
- * MSP430 architecture and CCS development environment
- * LaunchPad platform and Grace configuration tool
- * C and Assembly language programming and debugging
- * Interrupts, digital I/O, and D/A and A/D converters
- * Data storage and coding practices for flash memory
- * Oscillators, clocks, low-power modes, and timers
- * Digital and analog communication ports and protocols
- * Schematics and assembly instructions for 12 projects

Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics) By Cem Unsalan, H. Deniz Gurhan Bibliography

- Sales Rank: #570727 in Books
- Brand: Brand: McGraw-Hill Professional
- Published on: 2013-09-17
- Original language: English
- Number of items: 1
- Dimensions: 9.40" h x 1.10" w x 7.60" l, 2.00 pounds
- Binding: Hardcover
- 432 pages

Editorial Review

About the Author

Cem Unsalan, Ph.D., has worked in signal and image processing for 15 years. After getting a Ph.D. from The Ohio State University in 2003, he started working at Yeditepe University, Turkey, where he established the DSP Lab and has been teaching microprocessors and digital signal processing courses for seven years. Dr. Unsalan has published 16 journal publications and has published four international books. He holds one patent.

H. Deniz Gurhan received his B.Sc. from Yeditepe University. He is pursuing a Ph.D. degree in digital signal processing and embedded systems at the same university and works in the DSP Laboratory.

Users Review

From reader reviews:

Jose Miller:

Typically the book Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics) has a lot info on it. So when you check out this book you can get a lot of help. The book was written by the very famous author. The writer makes some research previous to write this book. That book very easy to read you can get the point easily after reading this book.

Richard Haley:

Playing with family in a very park, coming to see the water world or hanging out with buddies is thing that usually you will have done when you have spare time, and then why you don't try point that really opposite from that. 1 activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you already been ride on and with addition associated with. Even you love Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics), you may enjoy both. It is good combination right, you still wish to miss it? What kind of hangout type is it? Oh seriously its mind hangout people. What? Still don't have it, oh come on its identified as reading friends.

Jorge Eaton:

Reading a book for being new life style in this season; every people loves to read a book. When you examine a book you can get a large amount of benefit. When you read publications, you can improve your knowledge, since book has a lot of information upon it. The information that you will get depend on what types of book that you have read. If you want to get information about your review, you can read education books, but if you want to entertain yourself you can read a fiction books, these us novel, comics, as well as soon. The Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics) provide you with a new experience in studying a book.

Chuck Bryson:

As we know that book is significant thing to add our knowledge for everything. By a e-book we can know everything we want. A book is a set of written, printed, illustrated or maybe blank sheet. Every year ended up being exactly added. This reserve Programmable Microcontrollers with Applications: MSP430 LaunchPad with CCS and Grace (Electronics) was filled regarding science. Spend your spare time to add your knowledge about your scientific research competence. Some people has diverse feel when they reading some sort of book. If you know how big benefit from a book, you can experience enjoy to read a e-book. In the modern era like currently, many ways to get book that you simply wanted.
