Review Guide for the Certified Diabetes Educator® Exam, 3rd Edition By AADE

New Edition! Whether sitting for your first Certified Diabetes Educator® (CDE®) exam or renewing your credential, the third edition of the Review Guide for the Certified Diabetes Educator® Exam is your key study tool. The third edition has been revised to help you assess your proficiency in the exam content areas. The Guide begins by presenting strategies for preparing and taking the exam. This is followed by three self-assessment tests that reflect the three content sections of the exam: Assessment of Diabetes and Prediabetes, Interventions for Diabetes and Prediabetes, and Disease Management. When you complete these self-assessment tests you will have an indication of content areas for which you may need additional study. The two, 200-multiple-choice-question exams are designed to replicate the experience of exam day. The questions are random and address topics from all three content areas. An answer key for the self-assessments and the two practice exams provides the correct answer as well as an answer rationale for each of the more than 450 multiple-choice questions in the Guide. Note: The National Certification Board for Diabetes Educators (NCBDE) does not endorse, benefit from, or participate in the development of the Review Guide for the Certified Diabetes Educator® Exam.
