Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) By Frans Glangeaud, Jean-Luc Mari

Increasingly sophisticated techniques are available for obtaining seismic sections that give an accurate description of subsurface heterogeneities. These techniques continue to benefit from the progress made in research by signal processing specialists. The aim of this book is to familiarize geologists and geophysicists with the basic concepts of signal processing used in seismic surveys. It shows the value of using a combination of tools to solve a given problem. Many of the examples in this book come from the latest research. Its goal is to improve understanding of the most common signal processing algorithms and to suggest a methodology for testing them. Sometimes, modeling with simple, well-known functions is a very useful way to understand the behavior of a transformation. In this way, we seek to provide the specialist with a critical approach for handling these algorithms. This book will encourage the exchange of information among geologists, geophysicists and signal processing researchers, and will provide them with invaluable technical know-how.

Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) By Frans Glangeaud, Jean-Luc Mari Bibliography

- Rank: #5842391 in Books
- Published on: 1999-06-10
- Original language: English
- Number of items: 1
- Dimensions: 9.75" h x 1.13" w x 7.00" l, 2.40 pounds
- Binding: Hardcover
- 458 pages

Users Review

From reader reviews:

Stan Whitley:

The book Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) make you feel enjoy for your spare time. You can utilize to make your capable far more increase. Book can to get your best friend when you getting anxiety or having big problem along with your subject. If you can make examining a book Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) being your habit, you can get more advantages, like add your current capable, increase your knowledge about a number of or all subjects. You are able to know everything if you like available and read a e-book Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications). Kinds of book are a lot of. It means that, science e-book or encyclopedia or other individuals. So , how do you think about this e-book?

Maria Smith:

The actual book Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) will bring that you the new experience of reading a new book. The author style to clarify the idea is very unique. When you try to find new book you just read, this book very suitable to you. The book Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) is much recommended to you to learn. You can also get the e-book through the official web site, so you can easier to read the book.

Nancy Maxfield:

Many people spending their period by playing outside having friends, fun activity along with family or just watching TV the entire day. You can have new activity to enjoy your whole day by studying a book. Ugh, do you think reading a book really can hard because you have to accept the book everywhere? It alright you can have the e-book, having everywhere you want in your Smartphone. Like Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) which is obtaining the e-book version. So , try out this book? Let's notice.

James Voyles:

As a pupil exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some e-book, they are complained. Just tiny students that has reading's internal or real their passion. They just do what the trainer want, like asked to the library. They go to right now there but nothing reading critically. Any students feel that studying is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. So , this Signal Processing for Geologists and Geophysics (Institut Francais Du Petrole Publications) can make you sense more interested to read.
