Catholic Schools in the Public Interest: Past, Present, and Future Directions (Research on Religion and Education) From Information Age Publishing

This book is a study of the contributions of Catholic K-12 schools in the United States to the public interest from the 1800's to the present. It presents seven strategies that have the possibility of leading Catholic schools in positive, new directions. Outsiders often misunderstand the mission, purpose, and inclusivity of Catholic schools. This book brings a new focus on Catholic schools from the perspective of their service to this country through the education of Catholics and non-Catholics. In 16 chapters, a variety of scholars examine these schools across three periods: echoes of the past, realities of the present, and future directions. The intention of the editor and authors of this volume is that Catholic schools and those interested in conducting Catholic school research will find guidance, especially in examining newer types of partnerships flourishing in different types of Catholic schools in different regions of the country and types of schools from rural, suburban to city and inner-city schools. By increasing the data we have, such studies could help stem the tide of Catholic school demise. In addition, Catholic school leaders, and parents who chose them or are thinking about choosing them, will find here a balanced description of what constitutes a Catholic school and how they are different from public schools. In understanding better the role and function of Catholic schools in serving the public interest, new ideas, innovations, and improvements can help these schools survive and grow.
