### Editorial Review

Julitta Korol introduces programming concepts via numerous multi-step, illustrated, hands-on exercises. More advanced topics are introduced via custom projects. From recording and editing a macro and writing VBA code to working with XML documents and using classic ASP to access and display data on the Web, this book takes you on a programming journey that will change the way you work with Excel. About the Author

Julitta Korol has published over two dozen computer books on using and programming Microsoft Excel and Microsoft Access. In recent years she has been supporting and developing database processes and Web applications for a major New York City municipal agency. Ms. Korol has completed professional certifications by Microsoft Corporation and the Computing Technology Industry Association (CompTIA). She lives on Long Island, New York. Users Review
