Editorial Review

From School Library Journal

Grade 1-4. Ms. Frizzle and her science class take a trip through the town's power lines and discover how electricity works. Readers who go along for the ride will learn about how electricity is made in power plants, how transformers function, and about the differences in voltage. They will also find out how electricity makes heat and light. There is a brief mention made of how a TV works. Appropriate warnings about electricity are given. Dialogue balloons and Degen's colorful cartoon illustrations add humor. The book makes a complex subject fun to read about and simple to understand. It's bound to be a hit with the series' many fans. *?Blair Christolon, Prince William Library, Manassas, VA*

From Kirkus Reviews

The indomitable Ms. Frizzle is back for a lesson in electricity in this entertaining entry in the Magic School Bus series. The class begins with books, videos, experiments, and research reports; Ms. Frizzle, wearing a dress of geometric shapes, explains atoms and electrons, and, during an electrical storm, gets the students and her niece, Dottie, into the school bus to find out what's behind a power blackout. At a power plant, they learn how electricity is generated and how it travels. As in the other books in the series, this one doesn't cover everything, but it will stimulate interest; plenty of information is packed into the pages, and repeat readings are mandatory. About the Author

Joanna Cole and Bruce Degen, the author and illustrator of the Magic School Bus books, have collaborated for twenty years, bringing humor and true kidlike curiosity to science and learning. Booklist heralded Ms. Frizzle as "the wackiest, wisest teacher in picture books." Two MSB titles have been named School Library Journal Best Books of the Year, and they have won countless state book awards, from New York to Nebraska.

Users Review

From reader reviews:

Marc Gaul:

Information is provisions for anyone to get better life, information today can get by anyone from everywhere. The information can be a expertise or any news even a concern. What people must be consider whenever those information which is from the former life are hard to be find than now could be taking seriously which one works to believe or which one the actual resource are convinced. If you receive the unstable resource then you obtain it as your main information you will see huge disadvantage for you. All of those possibilities will not happen in you if you take The Magic School Bus And The Electric Field Trip as your daily resource information.

Larry Boggs:
