### Women, Knowledge, and Reality: Explorations in Feminist Philosophy (Place) From Routledge

This second edition of *Women, Knowledge, and Reality* continues to exhibit the ways in which feminist philosophers enrich and challenge philosophy. Essays by twenty-five feminist philosophers, seventeen of them new to the second edition, address fundamental issues in philosophical and feminist methods, metaphysics, epistemology, and the philosophies of science, language, religion and mind/body. This second edition expands the perspectives of women of color, of postmodernism and French feminism, and focuses on the most recent controversies in feminist theory and philosophy.

The chapters are organized by traditional fields of philosophy, and include introductions which contrast the ideas of feminist thinkers with traditional philosophers. The collected essays illustrate both the depth and breadth of feminist critiques and the range of contemporary feminist theoretical perspectives.

### Editorial Review

#### Review

"With a new introduction and important new contributions, this new edition of "Women, Knowledge and Reality synthesizes a better representation of work from continental philosophy and newer work from analytic philosophy for a comprehensive overview of contemporary feminist philosophy."

-Linda Alcoff, Syracuse University

#### From the Back Cover

This is a perfect textbook for teachers in women's studies courses and feminist philosophy courses who want not only a variety of perspectives represented, but also a sampling of different feminist methodologies.
