### Editorial Review

#### Review

This is a great all round and versatile book - love it! Jeffrey Tribe, Bedford College, UK A really good book looking at so many different aspects of creativity, which are backed up by great interviews with well known creatives. I will be heavily recommending this book with Level 2 students on their work placement unit, and recommending it to all students across our 4 year course. Sallyanne Theodosiou, University for Creative Arts, UK A very well written and considered book. The fact that the content is broken down into separate sections makes it a solid teaching resource. I especially like the fact that it looks into current trends using transcripts of interviews with various practitioners to explain the subject. A very engaging and thought provoking read. Andy Ellison, Nottingham Trent University, UK

#### From the Back Cover

**Creative Thinking** explores the tools that visual communicators can use to facilitate imaginative thinking. This title exposes readers to new ways of approaching the design process to help them to develop their powers of creative problem solving.

The book's core content visually and textually explains rules, theory, best practice, techniques and delightful visual curiosities that are designed to engage, provoke and inspire. Professional insights are provided by international contributors from a broad spectrum of the applied visual arts, including advertising and creative agencies, artists, animators, designers, illustrators and typographers.

#### About the Author

**Gavin Ambrose** teaches at the University of Brighton and is a practising graphic designer whose client base includes the art sector, galleries, publishers and advertising agencies. He has written and designed several books on graphic design, branding and packaging.

**Paul Harris** is a freelance journalist and writer who lives in Colombia, South America.
